

# FIELD COMPOST High Quality Products Made in East Anglia

Field No.18 Nutrient Rich Manure

**Product Specification** 

### Field No.18 **Nutrient Rich Manure**

#### Description

A high quality well-rotted and nutrient rich horse manure that has been graded for easy use.

- The perfect nutrient rich soil conditioner for use on vegetable patches and allotments.
- Graded for ease of digging and spreading.
- Rich in nitrogen and potash, perfect for sandy soil.
- A good source of soil organic matter.

#### Directions for use

- 1. Carefully weed the area on which the manure will be applied.
- 2. Spread the manure on the surface of the soil at a depth of approximately 10cm.
  - You may wish to adjust the quantity applied dependent on the soil type and crop to be grown.
- 3. Using a fork or a mechanical rotavator turn the manure into the soil.
- 4. You may wish to apply manure around growing plants as a mulch to retain moisture in the soil and suppress weed growth. The manure will slowly release nutrients to the growing plants every time you water.

See overleaf for Typical physico-chemical properties and nutrient content

Field No.18 Nutrient Rich Manure

**Product Specification** 

## Typical physico-chemical properties and nutrient content

Parameter	Value	Unit
Electrical Conductivity	<1500	μS/cm @ 20C
Moisture	55	%m/m
Bulk Density	350 - 450	kg/m³
рН	8.5 - 9.0	pH units
Total Extractable Nutrients		
Nitrogen as N	4.5	% Dry matter
Phosphorus as P	1	% Dry matter
Potassium as K	5.8	% Dry matter
Sodium as Na	3000	mg/kg (dm)
Magnesium as Mg	0.8	% Dry matter
Sulphur as S	3300	mg/kg (dm)
Boron as B	15	mg/kg (dm)
Copper as Cu	40	mg/kg (dm)
Iron as Fe	5200	mg/kg (dm)
Manganese as Mn	260	mg/kg (dm)
Molybdenum as Mo	3.2	mg/kg (dm)
Calcium as Ca	21000	mg/kg (dm)
Chloride as Cl	1500	mg/l
Zinc as Zn	90	mg/kg (dm)
