Field No.30 Wildflower Soil

Product Specification

Field No. 30 Wildflower Soil

Description

Field No.30 is a ready to use root zone containing a mix of sandy textured subsoil (conforming to BS3882:2015) and <6mm Grit. It is ideal for use in raised beds or for making up levels in planting areas where wildflower species are to be grown.

- **Field No.30** is carefully blended and graded to less than 8mm ensuring that it is always a clean and consistent product.
- **Field No.30** is blended using a high quality sandy textured subsoil and <6mm grit making it robust, easy to handle and free draining.
- **Field No.30** is low in organic matter and plant

nutrition making it ideal for wildflower species to thrive without competition from grasses weeds and other plant species.

Directions for use

1. Prepare your raised bed or planting area ensuring that there is adequate drainage. Calculate how much Field No.30 you need. A cubic metre is enough to cover 10m² at a depth of 100mm. If you aren't sure how much you need you can use our calculator on this website or give us a call and we will do the calculations for you.
2. Apply the Field No.30 to the required depth you don't need to allow for settlement. Finally sow the wildflower seeds or insert plants as per the suppliers recommendations.

See overleaf for typical physico-chemical properties and nutrient content

Product Specification

Typical physico-chemical properties and nutrient content

Parameter	Value	Unit
Stones > 20mm	0	% m/m
Glass < 20mm, > 2mm	<0.01	% m/m
Plastic < 20mm, > 2mm	<0.01	% m/m
Stones < 20mm, > 2mm	<28	% m/m
Wood 20mm, > 2mm	<2	% m/m
Weeds	*None evident	% m/m
pH	8	pH units
Electrical Conductivity	2600	MicroS/cm
Exchangeable sodium percentage	11	%
Phosphorus (extractable) as P	55	mg/l
Potassium (extractable) as K	700	mg/l
Magnesium (extractable) as Mg	90	mg/l
Nitrogen (total) as N	0.2	% m/m
Organic matter	3.5	% m/m
Carbon: Nitrogen Ratio	10	:1
Textural classification	Sandy Loam	
Sand	73	% m/m
Silt	14	% m/m
Clay	13	% m/m
Total extractable Zinc	16	mg/kg
Total extractable Copper	4	mg/kg
Total extractable Nickel	6	mg/kg

* Our topsoil products are blended using high quality natural soils which may contain occasional weed seeds.
